Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Bootstrap
- **Backend:** Java (Core Java, OOPs, J2EE)
- **Database:** MySQL
- **Tools & Technologies:** Git, RESTful APIs, Agile Methodology

Projects

1. Student Management System

Developed a Spring Boot-based web application using JSP and MySQL to manage student data. Included modules for student registration, course enrolment, mark entry, and report generation. Implemented CRUD operations, login validation, and error handling using MVC architecture and Spring Data JPA.

2. Business Management System

Designed and developed a full-stack business management application using Java, Spring Framework, and MySQL. Modules included Admin Login, User Management, Product Handling, and Order Tracking. Implemented MVC structure with controller-service-repository layers, and integrated login credential validation with secure redirect flow.

3. Job Portal Registration System

Created a dynamic job portal using HTML, CSS, JavaScript, and MySQL. Features include user registration, profile management, job search, and application tracking. Focused on form validation, database connectivity, and a responsive UI for better user experience.

Education

B.E. in Computer Science & Engineering

Vetri Vinayaha College of Engineering and Technology (2016 - 2020)

CGPA: 7.2

Certifications

- **Java Full Stack Developer** – CADEPT TECHYS Technical Training Institute, Poonamallee, Chennai

Languages Known

- English
- Tamil
- Malayalam

Additional Information

- **Availability:** Immediate joiner
 - **Location Preference:** Open to relocation or remote work
-  Passionate about learning new technologies and building innovative web solutions
